COMMERCIAL DEBT RECOVERY · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Receivables recovery for a nationwide franchise network

Prepared for Smash My Trash · July 2026

Two receivables challenges hiding inside a 500-territory system

To the Smash My Trash leadership team — you have built the category leader in mobile waste compaction: 500+ franchised territories, a recurring-contract model, and a customer base of manufacturers, distributors, big-box retail, automotive and construction sites. That growth generates receivables risk in two places at once.

At the franchisor. Royalty and fee arrears, equipment-financing balances, and legacy balances from underperforming or terminated franchisees quietly erode the corporate P&L — and every failed franchise is a permanent hole in the royalty stream.

Across the network. Each franchisee bills small-balance, high-volume commercial invoices to slow-pay, project-driven and seasonal customers — construction general contractors chief among them — work that pulls owners and their staff off route and off sales.

Our role is not to replace anyone. It is to be **discreet, contingency-only capacity** for both — the aged, complex and relationship-sensitive balances that are hardest to chase efficiently. You pay nothing unless we recover, and every account is worked to preserve the commercial relationships your franchisees depend on next month.

Two decades of commercial recovery

A track record built specifically on high-volume B2B receivables — placed, worked, and recovered under a spotless compliance record. Exactly the profile a 500-territory franchise system generates.

2004 Recovering commercial debt since	\$975M+ Receivables placed	\$76M+ Recovered for clients	800K+ Accounts worked
52% of placed accounts see a recovery	80–100% recovered on workable commercial balances	4.9★ Google client rating	\$0 upfront — pure contingency

How we would support Smash My Trash

The questions a franchisor and its operators should be asking a recovery partner — answered directly.

REQUIREMENT	SOUTHWEST RECOVERY SERVICES
Fit for a franchise system	We work both levels: franchisor receivables (royalty & fee arrears, equipment-finance balances, terminated-franchisee legacy debt) and the commercial service invoices your franchisees bill to their customers — under one partner, one process, one portal.
Contingency, purchase, or both	Pure contingency. Nothing upfront, and nothing at all unless we recover.
Fee structure & upfront costs	Zero upfront; zero fees unless we collect. A pre-agreed percentage of what is actually recovered, set by the volume, age and balance profile of the placements — quoted once we see a representative sample.
Small-balance, high-volume commercial AR	No minimum that would exclude your sub-\$1,000 service invoices — small-balance commercial volume is squarely what we handle at scale — and no maximum on larger franchisor balances.
Slow-pay & seasonal customers	Construction GCs, retailers and industrial sites that stretch terms and go quiet off-season are our daily work. Structured, professional follow-up recovers cash your franchisees have effectively been financing for free.
Disputed service invoices	Your model is a documentation advantage: every smash is captured with time-stamped photos and video. We validate against that proof of service and resolve disputes on the merits — faster, and safer for the relationship.
Franchisee royalty & termination balances	We recover arrears from active franchisees professionally, and pursue legacy balances from terminated or defaulted franchisees — protecting the royalty stream without corporate spending internal time on it.
Reporting & account management	A dedicated account manager plus our secure client portal (swrsportal.com) — real-time reporting, debtor status, secure file exchange and online placement, 24/7, with role-based access for a multi-entity group. Full detail below.
Average recovery rates	52% of placed accounts see a recovery; workable commercial balances typically resolve at 80–100% of face value. Rates track closely with age — the sooner an account is placed, the more comes back.

REQUIREMENT	SOUTHWEST RECOVERY SERVICES
Relationship-preserving comms	Firm, effective pressure without the tactics that damage an ongoing commercial relationship — because your franchisees keep servicing these same customers. Our approach is on a later page.

**THE SWRS CLIENT
PORTAL**

Full visibility, on demand — and built for a multi-entity group

Every placement is managed through our secure client portal at **swrsportal.com**. Corporate and, if you choose, each franchisee gets live, self-service access throughout the recovery process — backed by a dedicated account manager.

REAL-TIME ACTIVITY REPORTS

Run, filter by status, and export account and recovery reports on demand — a live dashboard, not a monthly summary.

DEBTOR STATUS & LOOKUP

Search any account for milestones, collector notes, payment history and clear status codes.

SECURE FILE EXCHANGE

Send placements, statements and the smash photo/video evidence safely — without email risk.

ONLINE PLACEMENT

Submit new accounts through structured forms, individually or in bulk, from any territory.

DIRECT-PAYMENT REPORTING

Log payments a customer makes to a franchisee directly, so balances stay accurate in real time.

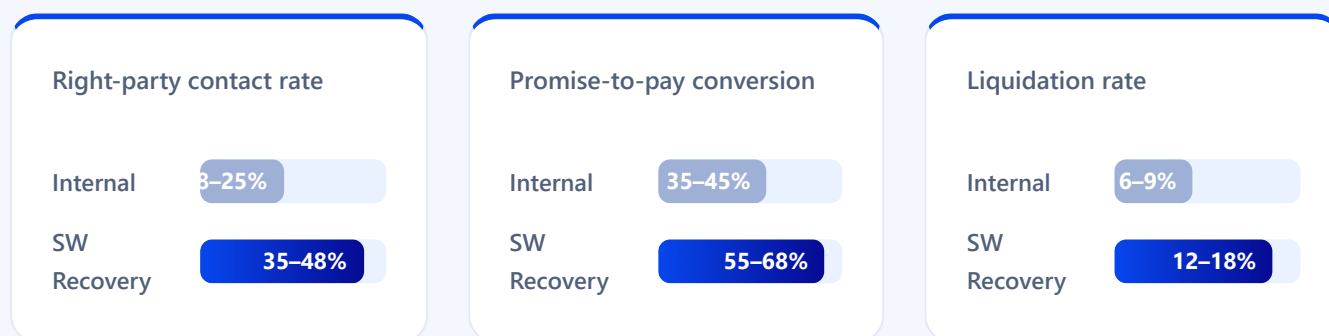

ROLE-BASED ACCESS & MFA

Standard and manager roles with multi-factor security; managers switch across accounts — built for a 500-territory network.

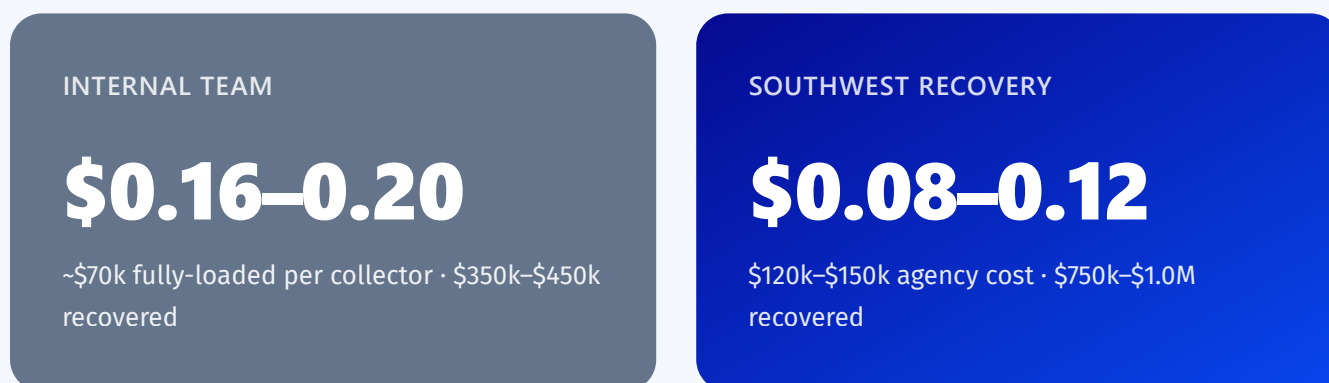

► **Portal Video Tour**

The enterprise view — cost per recovered dollar

A franchise-model enterprise creditor weighing whether to expand its internal collections team instead moved the work to Southwest Recovery. The unit economics changed decisively — without adding a single seat of headcount.

Cost per recovered dollar

Roughly **45% lower cost** per recovered dollar · ~2.0–2.5× output per seat · higher recoveries, better forecast accuracy.

Figures reflect an anonymized enterprise engagement with a franchise-model creditor, provided for illustrative benchmarking. Individual results vary by portfolio age, balance and industry. Sector references available on request.

We speak your invoices

Recurring service billing across hundreds of independent operators creates a specific receivables profile. Our recovery playbook is built for exactly that.

Small-balance, high-volume AR

Thousands of sub-\$1,000 service invoices are uneconomical for an internal team to chase — and exactly what our infrastructure liquidates at scale.

Slow-pay construction & seasonality

Project-based GCs and off-season lulls stretch terms for months. We recover the cash your franchisees have been financing for free.

Proof-of-service disputes

Your time-stamped smash photos and video are airtight evidence. We validate against them and close “we never got the service” disputes on the merits.

Multi-territory, multi-entity

One partner and one portal spanning 500+ franchises — role-based access, per-entity reporting, and a standard process where today there is none.

**BEST
ANGLE**

The franchise A/R value-add — protect royalties, strengthen the network

The highest-leverage move is not just recovering corporate's own arrears — it is offering Southwest Recovery to the entire network as an endorsed, zero-cost recovery benefit. Franchisees collect more of what they're owed, their unit economics improve, fewer fail — and a healthier network protects the royalty stream that funds corporate.

WHAT WE DO

Stand up a network-wide, contingency-only recovery program: franchisees place their aged commercial accounts through the portal, we work them under the SWRS compliance umbrella, and corporate recovers its own royalty and termination balances in parallel — all at no cost to the franchisor.

WHERE YOUR COUNSEL STEPS IN

If a balance requires formal legal action or a franchise-agreement remedy, that stays with your franchise counsel. We hand off a fully documented, organized file and keep working recovery alongside them, so nothing stalls between the two.

This is the FRSTeam-style embedded-A/R model: a receivables partner offered through the franchisor becomes a genuine franchise-development selling point, not just a back-office fix.

“Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.”

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services

In a recurring-service business, the customer we collect from today is the customer your franchisee routes to next week. Tone matters as much as outcome. We apply firm, effective pressure without the tactics that burn an ongoing commercial relationship — recovery that never reads as a generic collections call, and never reflects poorly on the Smash My Trash brand.
